

Greetings,

I am Juan Pablo, though I am commonly addressed as JP. I bring over 12 years of extensive experience as a backend developer, operating from a professional base spanning both Colombia and Spain. Throughout my career, I have dedicated my skills to crafting bespoke solutions for diverse clientele, encompassing corporations, teams, and individual clients across global domains. My work is characterized by swiftness, a deep-seated curiosity, and a wealth of expertise pertinent to the successful execution of your project.

I invite you to get in touch with me, and together, we can embark on the journey of building solutions that align seamlessly with your unique requirements and aspirations. Your project will benefit from the fusion of experience and innovation that I bring to the table.

Looking forward to the opportunity of collaborating with you.

Best regards,
JP (Juan Pablo)

Education:

2006: Introduction to Computer Science at Servicio Nacional de Aprendizaje (SENA)
2006 - 2011: Computer Science Degree at Universidad Pedagógica y Tecnológica de Colombia
2011 - Now: Multiple certifications at platzi.com

Experience:

January 2010 - June 2010: Internship at McCann Colombia
June 2010 - June 2011: Developer at McCann Colombia
June 2011 - July 2013: Senior Developer at McCann Colombia

My professional journey commenced at McCann Colombia, where I embarked on my career as a developer. During my tenure at McCann, I undertook the development of solutions and integrations tailored for distinguished entities. These included prominent organizations such as Grupo AVAL, the largest financial conglomerate in Colombia, Banco de Bogotá, a top-tier Colombian bank, and the Ministry of Defence. Additionally, I collaborated with Chevrolet on projects focused on diverse facets, encompassing marketing, hosting, analytics, and the implementation of Customer Relationship Management (CRM) systems.

My responsibilities extended to the integration of vital App measurement tools such as AppsFlyer and Adjust, contributing to the optimization of performance and efficacy. This multifaceted experience allowed me to actively engage in crafting solutions that enhanced operational efficiency and facilitated data-driven decision-making for the clients I served.

July 2013 - August 2018: Senior Developer at Domicilios.com

During my tenure at Domicilios.com, a significant competitor to Rappi in the Colombian market, I played a pivotal role in the development of web and app-based solutions, catering to both the business-to-consumer (B2C) and business-to-business (B2B) sectors. My contributions were deeply rooted in utilizing a comprehensive tech stack, comprising PHP, .NET, and JavaScript. This multifaceted experience allowed me to engage dynamically in crafting solutions that resonated with the diverse needs of our clientele, further solidifying the organization's competitive edge in the Colombian landscape.

August 2018 - March 2020: Consultant Developer at Movii

I joined Movii, a financial platform akin to Cash App or Wise, dedicated to facilitating seamless money transfers among individuals in Colombia. My engagement with the company commenced in a remote capacity, where I took on a part-time role in both the development of the mobile application and its ongoing maintenance. This collaboration has allowed me to actively contribute to the evolution and refinement of a cutting-edge fintech solution that empowers users to effortlessly send money to one another within the Colombian financial landscape.

March 2020 - Now: Freelancer

As of March 2020, I transitioned into the world of freelancing, offering remote services to an array of globally positioned companies. Over this duration, I have been engaged in a diverse spectrum of industries, extending my expertise to enterprises spanning e-commerce, financial institutions, healthcare, business-to-business (B2B) entities, event management, as well as communication and service providers. Noteworthy among the illustrious names I've collaborated with are Selina, Virgin Mobile, Ci Banco México, H.Way, GAB.com, and Fiesta Mart, among others. My professional journey as a freelancer has allowed me to apply my skills and experience to a dynamic and extensive array of projects across international boundaries.
